

You're invited to be a part of a public art work in Licton Springs!

During this global pandemic and protests for Black lives, please create a message for people walking through this neighborhood. *Your message for walkers can be words that inspire you, from your own culture and in your native language if you wish.*

Or, your message can answer one of these questions:

- *what is something that makes you happy or hopeful during this time?*
- *how have you been taking care of yourself or your community during this time?*
 - *what is one way our community can heal from racial violence?*

Please see a few examples above, and then write your own in the space below.

- How to return your message:
- text a photo of your message to (646)481-5687
 - email a scan or photo of your message to erin@purplegatedesign.com
 - drop off your sheet between 11-1 pm at Robert Eagle Staff where lunches are provided.

The project will be up by the end of August.

Thank you for participating!
